

QUALIFYING FOR CLASS-G CERTIFICATION

Qualifying for online green certification for buildings and businesses has never been easier or more affordable.

For Class-G, there are no prerequisites or barriers to entry. The most important thing is your commitment to sustainable growth in your everyday operations.

If your company is committed to operating responsibly, saving money, or saving the planet, you will most likely qualify. This will allow you to take advantage of our system's ability to measure your current commitment, and to help you and your employees grow annually in that mission.

Here are some statements to assist you in your decision to pursue Class-G.

You Qualify if Any of the Following Are True:

1. Your building or tenant space is managed sustainably.
2. Sustainability is important to your mission, core values, employees and customers.
3. You don't know if your building or tenant space is managed sustainably, but wish it was.
